1 Purpose

The purpose of this document is to capture the legal framework for roll out of PMWANI WIFI PRAVAAH services. Relevant sections of this document will be embedded in other documents like agreements/T&C etc. created for partners and users of PMWANI WIFI PRAVAAH.

2 Content flow

Initial sections are generic and applicable to all audiences and provide an overview of the services and retail policies involved and terms and conditions for retail.

Subsequent sections are for partners working together to enable the services. Some sections here are confidential to specific partners. Section 4 of the document will map the relevant sections for specific partners.

3 Content

3.1 Introduction

PMWANI WiFi scheme is jointly defined/developed/promoted/regulated by the Telecom Regulatory Authority of India (TRAI), Department of Telecom (DOT) and Centre for Development of Telematics (CDOT).

PMWANI WiFi aims to make broadband internet available in public places to WiFi enabled mobile handsets or equivalent WiFi enabled devices e.g. laptops or tablets etc. PMWANI WiFi retail outlets will be available across India. The Users will purchase PMWANI WiFi plans in small denominations of Rs. 5/-, Rs. 10/- etc. at the PMWANI retail outlets and will use the plan for internet access until the plan expires due to data or time limits.

3.2 Terminology

PMWANI WiFi will be enabled by technology/business partners defined in the PMWANI scheme working together to create a PMWANI WiFi retail network for users.

- i. TRAI, DOT, CDOT who define/develop/promote/regulate PMWANI WiFi will be together referred to as the "**Government/Authority**"
- ii. **PDO (Public Data Offices)** will be the retail outlets for PMWANI WiFi
- iii. **ISP (Internet Service Providers)** will provide the internet connection to the PDO's.
- iv. **PDOA (Public Data Office Aggregators)** will manage the PDO's and provide the necessary HW/SW/business framework to allow PMWANI WiFi at PDO's.
- v. **MAP (Mobile Application Providers)** will provide the mobile application for users to search PMWANI WiFi and purchase/use/monitor plans at PDO's.
- vi. **User** will use the PMWANI WiFi using his/her WiFi enabled device after discovery/authentication/authorization by MAP provided mobile App

3.3 Role

- i. CP-Enrich™ will offer PMWANI WiFi under the brand name "PMWANI WiFi Pravaah". CP-Enrich™ will play the role of PDOA and MAP in the PMWANI WiFi scheme
- ii. CP-Enrich™ will hence forth be referred to as "**Company**" and "PMWANI WiFi Pravaah" will be referred to as the "**Company WiFi**" promoted through "**Company App**".
- iii. The company will play its defined role with the help of partners in the PMWANI WiFi scheme, namely ISP's and PDO's. The partners will henceforth together be referred to as "**Company Partners**"
- iv. The company has obtained licenses to roll out PMWANI WiFi pan India. PMWANI WIFI will be provided by other companies also in same State/Area and such WiFi will be referred to as "**Competitor WiFi**" promoted through "**Competitor App**" by "**Competitor company**" with the help of "**Competitor partners**"
- v. PMWANI WIFI deployments by competitor companies in the same state/area will create overlapping service areas of competitor companies. PMWANI WIFI users will hence be registered with different companies. Users registered with company will be referred to as "**Company users**" and users registered with competitor companies will be referred to as "**Competitor users**"

State/Area 1

State/Area 2

- vi. Company users roaming in competitor WiFi areas using company App will be “**Roam-out**” users of company
- vii. Competitor users roaming in company WiFi areas using competitor App will be “**Roam-in**” users of company

3.4 Services

- i. The company will provide PMWANI WiFi in Karnataka and surrounding states in lieu of pan India license obtained from the Government
- ii. The company will provide PMWANI WiFi hotspots under its brand name in association with its company partners, namely PDO's and ISP's
- iii. The company will through its partners and associated backend HW/SW provide the below functions to users through the company app
 - a. Registering the user
 - b. Assisting the user to discover and show nearby and in-range company WiFi
 - c. Allowing the user to choose and connect to company WiFi
 - d. Authenticate the user and take user to a company captive portal to purchase appropriate plan for internet access
 - e. Authorize internet access for the user until the purchased plan is exhausted
 - f. Provide usage information for the plan purchased and in use
- iv. The company app will provide similar functions to roam-out users to connect to competitor WiFi as per terms and conditions of the competitor company. Such a situation will arise when company WiFi is not in-range of company user.
- v. The company will provide similar functions to roam-in users to connect to company WiFi using competitor app as per terms and conditions of the company. Such a situation will arise when competitor WiFi is not in-range of competitor user.
- vi. The company will bring in new functions to users including such services as location-based services, when it becomes mandatory and/or permissible as per government rules & regulations, and partner HW/SW upgrades are available and business-wise feasible to adopt
- vii. The company will as a backend service also provide all operational support for running the company WiFi services including managing the incoming funds due to company WiFi plans sale, and settling the funds amongst company partners based on agreed terms and conditions of partners.

The following restrictions will be applicable: -

- viii. The company will not provide switched telephony services (i.e., its own chargeable telephony services) within or outside its company WiFi network

- ix. The company will not provide seamless mobility (i.e., no call/session drop due to user mobility) to company WiFi users due to known limitations in WiFi technology. Limited mobility will be available as implemented within the WiFi devices deployed in the company's WiFi network. Improved mobility will be made available as and when technology and partner HW/SW upgrades are available and business-wise feasible to adopt
- x. The company will not provide seamless roaming (i.e., using company WiFi plans in competitor WiFi network and vice-versa), until competitor agreements/technology for the same becomes available and business-wise feasible to adopt

3.5 Policy

Following general policies will be applicable

3.5.1 Compliances

- i. The company in association with its partners will provide user services as per licenses obtained from government/authority
- ii. The company will maintain its association with partners and users under clear agreements and will abide by the same at all times
- iii. The company will maintain accounts for transactions/commercials involving partners and users in order to give a fair view of company operations and accounts at all times
- iv. The company will follow all applicable taxation rules of the land for all transactions/commercials involved
- v. The company services, operations and policy will at all times be governed by rules and regulations imposed/revised by the government/authorities and this policy document will be under version control, and revised, published and followed accordingly
- vi. The company will accordingly keep the partner and user agreements updated from time to time and follow the same at all times
- vii. The company will be jointly responsible for any violation of terms & conditions arising out of its own act or acts of its employees or partners or users and in such cases will investigate, acknowledge and take corrective actions to avoid such violations in future. The company will respect and abide by the order of the Government if any in regard to the violation

3.5.2 Grievances Redressal

- i. The company will be the 1st point of contact for all complaints originating from Government, users or partners. The company will provide its best response and furnish relevant supporting information on the matter either sourced from its own records or records of its partners or the Government

- ii. The company will be responsible for the correctness of the response & furnished supporting information
- iii. The company will acknowledge and attend to rectifications (HW, SW, accounts, security, process etc.) if any as a result of the complaint, either singly or in association with its partners, and will provide the rectifications at the earliest or as per Government imposed timelines
- iv. The company will respect any disputes that may still arise in spite of the responses & rectifications, and will be committed to resolving such disputes by the best means lawfully
- v. All matters of dispute that may be taken up for resolution legally shall be tried and resolved in the courts of Karnataka only
- vi. The company will keep the Government indemnified for all claims, costs, charges, or damages in disputes related to its employees, partners or users

3.5.3 Withdrawal of Services

- i. The company may withdraw its services completely due to a government/authority order or otherwise with a notice period of 60 days' to partners and 30 days' to users, and in such cases will make a best attempt to transfer its ownership to another company in order to not impact the already deployed PMWANI WiFi services and cause inconvenience to users.

3.6 Retail Policy, T&C

Users will be exposed to a company app for using the company WiFi services. Following user specific policies will be applicable

3.6.1 Coverage Policy

- i. Company WiFi coverage will be planned primarily for places where public users are expected to converge and have a requirement for broadband internet access
- ii. Company WiFi coverage will be planned in the form of hot spots only and the hot spots will be disjoint hence permitting very limited mobility for users
- iii. Company users are hence expected to search, move-to and connect-to nearest available company hot spot, and in its absence search, move-to and connect-to any other nearby available competitor hot spot for availing PMWANI WiFi services. This shall be understood by the user as the normal mode of usage of PMWANI WiFi
- iv. Company will be committed to spread the WiFi hot spots over a period of time as per its expansion plan to cover more areas and make company WiFi seamless to roaming company users

3.6.2 Search Policy

- i. Company App will follow a fair PMWANI WiFi Search Policy
- ii. Company App will show all nearby and in-range PMWANI WiFi as per central registry database of PMWANI PDO's
- iii. Company App will not interfere with the user choice made for PMWANI WiFi to connect to
- iv. Company App may however list the company WiFi on top to encourage company users to first move-to and check the company WiFi before connecting to a competitor WiFi

3.6.3 Pricing Policy

- i. Company WiFi will be available against purchase of company WiFi plan at companies PDO outlets
- ii. Company WiFi plans will be published on company captive portal when user (company or competitor) connects to company WiFi at company PDO outlets
- iii. Company WiFi plan purchased will entitle the user to company WiFi limited only by maximum data limit or time limit whichever expires earlier
- iv. Company WiFi plan purchases will be through digital payments only using secure payment gateways
- v. Company WiFi plan purchased will not be usable or transferable to competitor WiFi unless agreements/technology for roaming or transferring the funds becomes available and business-wise feasible to implement
- vi. Company WiFi plans will follow the below pricing template

WiFi retail plan name	Plan Value (Rs.)	Data Limit	Time Limit	Guaranteed Speed (if configurable)	Maximum Speed (if configurable)
Quick 5	5	1GB	4 hrs	Determined by PDO owner restriction on number of users	Determined by ISP connection at PDO
Day 10	10	2GB	1 day	<same>	<same>

Note: This is only a sample

- vii. Company WiFi plans may not guarantee any average or maximum speed as the WiFi bandwidth is shared amongst multiple users. Any such guarantees will be explicitly mentioned in the plans if the same is technology and business wise feasible to implement and adopt. Company may however with the help of PDO partners implement restrictions on number of simultaneous users at PDO's to ensure the user experience is not impacted due to excessive internet sharing
- viii. Company WiFi plans will be defined and revised periodically by the company based on user and partner feedback and will aim to balance user and business requirements

- ix. Company WiFi plans will be uniform across company PDO's. Variations across PDO's may be allowed in future due to unique PDO challenges provided partner HW/SW upgrades can support such variations

3.6.4 Cancellation Policy

- i. Any company WiFi plan purchased successfully by the user will be delivered instantly to the PMWANI accounting system for user authorization and accounting purposes. Hence, cancellation of purchase will not be possible. Refund option may be exercised by user for cancelling a purchase already done
- ii. Any failed purchase will result in automatic refund without need for any user intervention

3.6.5 Refund policy

- i. Company WiFi plan which is partially used, can be used (if not expired as per time limit) in subsequent visits to the same PDO or any other company PDO
- ii. If a user so desires, a company WiFi plan which has not expired can be refunded as per refund policy
- iii. Refund of company WiFi plan can be initiated by making a request to the company in the user contact form provided on the company portal (or) captive portal when connected to company WiFi
- iv. Refund will be initiated and completed in a time bound manner as per terms & conditions for refund
- v. A Refund fee may be charged as per terms & conditions for refund and may be deducted

3.6.6 Usage Policy

- i. Company WiFi plan shall be used for internet access as per ISP defined terms & conditions for legal internet use. There shall be no further surveillance or monitoring or control by the company or PDO
- ii. Company or PDO may however implement timings for PDO working hours to avoid odd hours and hence potential internet misuse
- iii. Company or PDO may also implement strategies like user limit or user bandwidth control to ensure fair internet use for all users
- iv. Company or competitor users using company WiFi will be completely responsible for rightful use of internet at company PDO outlets
- v. Company or PDO shall remain unaware and indemnified from any misuse of internet that may happen at company PDO outlets

- vi. Company shall however support the authorities in such matters with supporting information like CCTV footages, user logs etc. to aid investigation that may happen with regard to wrongful use of internet at company PDO outlets

3.6.7 Privacy Policy

Company WiFi and Company App's will ensure a secure environment for users

Secure Environment: -

- i. The company will take all reasonable steps to ensure a secure environment to safeguard the privacy and confidentiality of user data in storage or transit
- ii. The company will host its backend software on secure servers complying to the security requirements as defined in the PMWANI WiFi scheme
- iii. The company will store user profiles containing confidential user information like mobile no.s, passwords etc. on secure storage servers as defined in the PMWANI WiFi scheme
- iv. The company will obtain security certificates for its domain, backend software, portal, Mobile App etc. as per requirement in the PMWANI WiFi scheme
- v. The company will use secure Payment and secure SMS gateways with requirements as defined in the PMWANI WiFi scheme
- vi. The company will ensure that all security accreditations and certifications are promptly renewed to ensure uninterrupted secure environment at all times
- vii. The company may have limited control to alter security mechanisms built into the PMWANI WiFi scheme
- viii. The company within its limited control will not do any configuration which will compromise the security mechanisms built into the PMWANI WiFi scheme E.g. Routing traffic through specific nodes creating vulnerabilities for eavesdropping on user data by company or 3rd party
- ix. The company will stop company WiFi service if a security issue is identified or reported, and resume the service only after ascertaining that the secure environment has been restored

Secure Company Apps & Processes: -

- i. The company App's, both mobile or backend, may store and send confidential user information like mobile no, email Id, passwords etc. in secure format as defined in the PMWANI scheme
- ii. The company App's may also store and send App usage statistics to understand the App performance and provide inputs to developers to improve the App's

- iii. The company App's may also store and send user account logs, User location logs, NAT logs etc. within India for 1 year as per Government requirements for the purpose of legal enquiries that may originate from Law Enforcing Agencies.
- iv. The company personnel/admin may not have direct access to any of the above data due to features of PMWANI architecture, thus ensuring inherent safety of user profile data, user log data or app performance data.
- v. However, for any minimal access that company personnel/admin may have for operations purposes, the company will be responsible for proper handling of such user data.
- vi. The company personnel/admin will be trained to follow strict company processes and access restrictions to ensure access to such user data is limited and that such data is not taken out of the servers and shared with 3rd party
- vii. The company will not be responsible for any user data breaches caused by architectural gaps in PMWANI scheme or implementation gaps in underlying HW or SW.
- viii. The company will however be responsible to bring in necessary rectifications to resolve architectural and implementation issues at the earliest with the help of government and partners

3.6.8 Retail T&C

- i. Company WiFi will be available only in India
- ii. Company WiFi will be available in hot spots called company PDO's only
- iii. Company WiFi PDO locations will be fixed and published in the company App
- iv. Company WiFi users are expected to search, move-to and connect-to company WiFi in nearest company PDO. Company WiFi will not be delivered at current location or any nearby location of user
- v. Company users are requested to use their discretion to purchase WiFi plans of their company or competitor company based on their current location and usage requirements.
- vi. Company WiFi plans once purchased at company PDO will be usable in the same PDO or any other company PDO anywhere in India. Purchased company WiFi plans will not be transferrable to competitor company to avail services from competitor WiFi.
- vii. Company will provide internet as per purchased plan (data and time limit) without any further promise on average or maximum speed unless explicitly mentioned in the plan
- viii. Company will provide internet during working hours of the company PDO only as published in the company App
- ix. Company will provide internet "as is" and will not be responsible for bad user experience due to issues in internet connection at PDO or any other reasons beyond its control.

- x. Company users may request for refund in case not satisfied with services or for any other reasons
- xi. Refund will be applicable only for unused plan value. User cannot demand refund for used plan value not satisfying their requirements
- xii. Refund will be processed in 7 working days' time
- xiii. Refund charges of 10% will be deducted
- xiv. Refund due to payment failures will be processed by the bank/payment gateway automatically and no charges will be applied
- xv. Users will be completely responsible for rightful and legal use of internet at company PDO's
- xvi. Company will be obliged to share user information like user profile, user logs and app logs in case of enquiries initiated by authorities for wrongful internet use or any other reasons
- xvii. Company will otherwise be committed to user privacy and will be responsible for any breach or violation of user privacy that may happen due to its negligence
- xviii. Company shall not be held responsible for any breach or violation of user privacy due to reasons not in its control like gaps in Internet/PMWANI architecture or its implementation
- xix. Company shall be obliged to change the terms & conditions of service to align with government regulations or may bring in change in services in an informed manner. The same shall not be questioned or objected by the users
- xx. Company shall be the single point of contact for any grievances that the users may have related to use of company WiFi
- xxi. Company shall respond to all grievances in 7 working days' time with supporting information wherever required to be provided
- xxii. Any disputes in spite of the responses and clarifications provided shall be addressed by the company lawfully in a time bound manner and if the same requires resolution in courts shall be tried and resolved in courts of Karnataka only
- xxiii. The above terms & conditions will be applicable to all users of company WiFi including roam-in competitor users
- xxiv. Company roam-out users using competitor WiFi will be governed by terms & conditions of competitor company. Company users shall take up any grievances related to use of competitor WiFi with the competitor company only and keep the company indemnified in such matters

3.7 Partner Policy

3.7.1 General

Following general partner policy will be followed.

3.7.1.1 Fairness

- i. The company will ensure fairness in choosing its partners. The company will make its choice of partner purely on the basis of merit, without pre-judice or bias, and maintain fair and ethical business practises when engaging with partners. When a partner cannot be engaged for feasibility reasons, fair feedback will be made available to enable the partners for future engagements

3.7.1.2 Confidentiality

- i. The agreements arrived between the company and its partners will be kept strictly confidential between the company and partner
- ii. The company will maintain confidentiality about its partners and agreements to protect the partners from being unfairly exposed without reason
- iii. The partner information will be made available to the Government on request or in the case of resolving disputes which require the partner information to be revealed. In such cases the partner will be intimated before revealing the information

3.7.1.3 Transparency

- i. The company will maintain accuracy and transparency in accounting for partners and allow partner accounts to be viewable/downloadable for review anytime
- ii. All settlements done will be accompanied with necessary supporting documents/statements to give the partner a fair view about the calculations involved in arriving at the settlement

3.7.1.4 Termination

- i. The company may terminate its partnerships and bring in new partners for valid reasons as per agreed terms & conditions and the company will in such cases provide fair feedback for such decisions taken
- ii. Any such decisions taken by the company shall not be questionable

3.7.2 ISP Policy, T&C

3.7.2.1 Eligibility

- i. ISP will be a registered Internet Service Provider (ISP) registered with DOT and eligible to provide internet services in the region in which PDO will be setup

3.7.2.2 Role

ISP will provide planning and operational support to the company for PDO setup and operations

Planning : -

- i. ISP will provide its regional presence information and regional internet plans for PMWANI WiFi in advance as per company defined template in Section 3.7.4.1 in order for the company to plan PDO's
- ii. ISP will on a need basis revise its regional internet plans to help company make the business viable for all company partners and users

Operational : -

- iii. ISP will issue a new or revised base subscription (as per PMWANI requirements) in PDO name on being intimated about PDO signup for PMWANI
- iv. ISP will provide internet connectivity to the PDO, including the internet router, backhaul infrastructure etc. as per the base subscription terms & conditions
- v. ISP will provide support to company and PDO for issue resolutions if any related to the internet connection

3.7.2.3 Fairness

- i. ISP will be allowed to independently define and declare its area wise plans for PMWANI WiFi as per template in Section 3.7.4.1.
- ii. The company thereafter will ensure fairness in choice of ISP for PDO in line with the fairness policy for partners defined in 3.7.1.1
- iii. The company will provide feedback wherever possible to help ISP's improve their offerings for future PDO deployments in the area
- iv. The company will ensure fairness in business across ISP's to the best extent possible

3.7.2.4 Agreement

- i. ISP will have to sign on a one-time agreement (template for commercials and T&C) to engage with the company for PDO setups
- ii. ISP agreement period will be 3 years during which the policy, template for commercials & associated terms and condition will not change. Minor changes may be accommodated by

adding addendums to the original agreement if necessary, during the course of the agreement period

- iii. ISP during the agreement period will participate in the company process for setup and maintenance of PDO's as per ISP's roles & responsibilities
- iv. ISP role related to submission of revised internet plans during the agreement period shall be considered as change in commercials as per provisions of the agreement and shall not be considered as amendments
- v. ISP will be represented by key personnel like regional and/or area managers to execute the agreements and for support in PDO planning including submission of new and revised commercials (ISP plans)

3.7.2.5 *Commercials*

- i. ISP will publish its regional ISP plans specific to PMWANI periodically and in advance and per template defined in Section 3.7.4.1
- ii. Company will combine ISP plans with PDO plans to prepare new/revised PDO subscriptions for PDO
- iii. PDO subscription signed by a PDO will entitle the ISP to commercials as defined in the ISP plan chosen and as per Terms & Conditions below

3.7.2.6 *T&C*

The engagement of company with ISP shall be governed by agreements signed and T&C for engagement as described below. The commercials involved in the engagement shall be as described in Section 3.7.4

ISP Plans: -

- i. ISP shall submit new/revised PMWANI internet plans as per template in Section 3.7.4.1 to the company on or before 15th day of 3rd month of every quarter
- ii. ISP shall clearly indicate for each plan if the same should be considered as "new", "suspended" or "withdrawn".
 - a. A suspended plan will not be taken into any further new PDO subscriptions, but existing PDO subscriptions already using the plan can continue use the same
 - b. A withdrawn plan will be completely invalid going forward, and hence PDO subscriptions using the plan have to be migrated to new plans
- iii. The company will there after revise the ISP's internet plan portfolio for PMWANI and take necessary steps to roll out new/revised PDO subscriptions using the ISP's new/active PMWANI internet plans

PDO subscription: -

- iv. PDO Subscription changes will happen during agreement period of company with PDO

- a. Company will issue new/revised PDO subscriptions as per template in Section 3.7.4.3 based out of ISP and PDO plans for PMWANI
- b. A PDO subscription will by default be marked as “inactive” and will be marked as “active” when the PDO signs up for the new/revised PDO subscription
- c. PDO subscriptions once signed will not be revisable for at least 3 months from the date of activation
- d. During the PDO subscription period, company may receive requests from PDO or ISP (with valid reason) for suspension or termination of PDO subscription. Or company by itself (with valid reasons) may decide to suspend / terminate the PDO subscription
 - o Suspension will be temporary and revokable (e.g. non payment of rent for ISP base plan).
 - o Termination would mean termination of agreement signed between the PDO and company.
- vi. Company shall not update the ISP instantly on each such or similar PDO subscription changes that may happen during the agreement period of company with PDO.
- vii. Company shall update the ISP with a monthly statement on active, revised, inactive, terminated PDO subscriptions. The PDO subscriptions statement for month (N) will be provided on the 7th day of month (N+1)
- viii. The company may add remarks for PDO subscriptions which were activated/inactivated/revised/terminated in month (N) to provide useful feedback for ISP to make changes in their PMWANI internet plans

PDO Ownership: -

- ix. The ISP base plan subscription shall be in the name of the PDO owner and provided by ISP. The internet router will be property of ISP and/or PDO as per agreement in base plan between ISP and PDO. ISP shall independently manage the base subscription of the PDO. The company will only facilitate the base subscription for PDO based on PMWANI requirements.
 - a. ISP shall provide a new/revised base plan subscription to PDO having a mention for “permit” to use for “PMWANI WiFi” purposes
 - b. PDO shall be completely responsible for fulfilling both the one-time and monthly commercials of the ISP base plan subscription.
 - c. ISP shall keep the company informed about any base plan non-fulfilment of requirements by PDO and any action thereby the company should take towards the PMWANI subscription of PDO
- x. The PMWANI subscription for the PDO will in the name of PDO owner and provided by the company. The PMWANI WiFi access point (AP) will be the property of company and/or PDO

as per agreement between company and PDO. Company shall independently manage the PMWANI subscription of the PDO.

- a. Company will be completely responsible for fulfilling the monthly commercials of PMWANI subscription towards ISP and PDO
- b. Company will keep the ISP informed about any PMWANI subscription changes for the PDO and any action thereby the ISP should take towards the base plan subscription of PDO
- c. Company will settle the PMWANI monthly commercials towards ISP as per settlement rules for ISP in Section 3.7.4.5.1

PDO Ownership Transfer: -

- xi. PDO subscription transfer may be initiated by the PDO owner. The company will take forward the same as termination of existing PDO subscription and issue of new PDO subscription in the name of new PDO owner.
- xii. ISP shall take into account that the PDO subscription transfer process involves transfer of base subscription or issue of new base subscription in new owner name and shall act on the requirement as per instructions in PDO subscription issued by company in new owner name

PDO Location Transfer: -

- xiii. The PDO owner cannot change the location of PDO without prior intimation and subsequent confirmation from company
- xiv. PDO location transfer will be confirmed by company by issuing a revised PDO subscription with change in location for PDO
- xv. ISP shall take into account that PDO location change requires due process to be completed by company and hence not process requests for shifting of base subscription to any new location unless authorized to do so by company in the revised PDO subscription

PMWANI monthly Settlement (towards ISP): -

- xvi. PDO revenue will be calculated as per rule defined in Section 3.7.4.4. Company will use authorized accounting software from Government or Government approved vendor for declaring the PDO revenue
- xvii. Company will use the declared PDO revenue as basis to do ISP settlement calculations as per ISP settlement rules defined in Section 3.7.4.5.1
- xviii. ISP shall not generate any monthly invoices/demand towards settlements for PDO revenue
- xix. Company will do the revenue settlement calculation for month (N) before 7th day of month (N+1). Revenue settlement statement for month (N) will be generated and shared with the

ISP on 7th day of month (N+1). Revenue settlement statement will be a consolidated statement capturing the revenue settlement for all PDO's served by the ISP.

- xx. Any discrepancies observed by the ISP in the consolidated revenue statement shall be brought to the notice of the company before 15th day of month (N+1) and rectification if any from the company will be completed within 7 days and revenue settlement will be completed by 21st day of month (N+1)
- xxi. Revenue settlement for ISP will happen in the bank account of ISP authorized by the ISP. There will be no cash settlement.
- xxii. Delay in revenue settlement will result in per day penalty as mentioned in ISP plan, Section 3.7.4.1
- xxiii. Delay in revenue settlement beyond maximum limit as mentioned in ISP plan, Section 3.7.4.1, shall authorize ISP to disallow PMWANI WiFi in PDO's. Company will be obliged by ISP decision to stop PMWANI WiFi retail at PDO's immediately and mark all PDO's as "suspended". ISP may at its discretion decide to allow base plan to function in PDO's based on existing base plan agreement with the PDO. Based on further company actions in the matter, there can be two outcomes:
 - a. ISP may revoke its decision based on clearing of all dues by company in which case company will restore PMWANI WiFi in all PDO's and mark all PDO's as "active". The ISP agreement with company shall remain unaffected
 - b. ISP may decide to terminate the agreement with company which shall be considered as unnatural termination of agreement by ISP with immediate effect without any obligation from ISP to serve the notice period. Company will be obliged to clear its dues towards ISP with penalties until the date of termination

Authorization: -

- xxiv. The company will be represented by authorized personnel who will send official emails to report signed plans, agreements, amendments, account statements etc. Any other informal communication through social media channels etc. shall be considered unofficial
- xxv. ISP will be represented by key personnel like regional and/or area managers to execute the agreements and for support in PDO planning including submission of new and revised commercials (ISP plans)
- xxvi. The company may introduce a business tool in future to capture all agreements/transactions and record signatures for which logins will be made available to key personnel of ISP. Access to such business tool shall be considered as substitute for official email communication

Confidentiality: -

- xxvii. The company may decide to share the complete business plan including commercials template related to PDO with ISP. This is because company considers ISP as primary and key partner for promoting PMWANI WiFi

- xxviii. All engagement material consisting of company business plan, ISP agreement, ISP plans submitted, ISP commercials and PDO subscription list shared shall be considered as confidential information between ISP and company and will require careful handling by both ISP and company as per partner confidential policy as in Section 3.7.1.2

Transparency: -

- xxix. ISP will have access to all required statements like revenue settlement statement, PDO subscription statement etc. to verify the correctness of accounting in monthly settlements that happened
- xxx. Company shall not be obliged to share any other information that will reveal the commercials of 3rd party like competitor ISP or PDO. Any such information may be obtained by the ISP by using the available grievance redressal mechanism provided by the company

Termination: -

- xxxi. Either of ISP or company in normal scenarios may terminate the agreement with minimum 3 months' notice during the agreement period
- xxxii. Either party shall co-operate to ensure services are not impacted until end of notice period
- xxxiii. All normally followed processes shall continue to be followed during the notice period. ISP should understand the impact of termination on base plan of PDO's and not cause any hindrance in attempts from company or PDO to migrate to another ISP during the notice period.
- xxxiv. Company shall be obliged to clear all ISP dues until end of notice period

Renewal: -

- xxxv. In normal scenarios, company may initiate renewal of agreement with ISP 3 months before end of the 3 year agreement period

Business Guarantee: -

- xxxvi. Agreement with ISP shall not be considered as exclusive agreement for issue of PDO subscriptions using ISP provided internet connections only. Company may have similar agreements with competitor ISP's and shall choose ISP for a PDO connection in a fair manner as per fairness policy.
- xxxvii. Further, company may not be able to provide any guarantee to the ISP on the volume of business that PMWANI WiFi can generate or guarantee on sustaining ongoing business given the dynamic PDO activation/deactivation scenarios that may happen. Any business projections (if made) by the company when signing of agreement or any other interactions (formal or informal) shall be based on inputs available and underlying assumptions and the ISP shall not hold the company responsible in future for correctness of such projections.
- xxxviii. ISP shall plan its business independently and ensure business viability for itself by designing appropriate PMWANI plans using flexibility in fixing parameters provided by the company

- xxxix. The company shall not be held liable for any losses that the ISP may incur due to PMWANI business

Grievances: -

- xl. The company will be the single Point of Contact for all grievances related to agreements or payments or in general any other issues related to PMWANI WiFi retail. Company will address the grievances as per its Grievances policy in Section 3.5.2

3.7.3 PDO Policy, T&C

3.7.3.1 Eligibility

- i. PDO will be a local resident of region with valid PAN (individual/company), with GST registration if applicable, and ownership or tenancy of premises where PDO will be setup
- ii. In case of tenancy, the PDO has to submit a NOC from the owner for use of premises for PMWANI WiFi operations

3.7.3.2 Role

PDO will provide planning and operational support to the company for PDO setup and operations

Planning: -

- i. The PDO will have to support the company with inputs about regional internet usage patterns, costs, pricing etc. to help company create a PDO agreement/subscription for sign up
- ii. The PDO on signing the agreement/subscription, will be participant in the PDO setup process providing the required inputs/commercials/support until the new/revised internet base subscription and new/revised PMWANI subscription are issued and PMWANI WiFi is setup

Operational: -

- iii. PDO will be completely responsible for maintaining the internet base subscription for PMWANI WiFi including monthly rent if applicable for the base subscription
- iv. PDO will be responsible for rest of PDO maintenance like local security to equipment, electricity/backup, issue resolution support etc. to ensure uninterrupted PMWANI WiFi availability during PDO working hours
- v. PDO will be responsible for local marketing for promoting PMWANI at ground level and ensuring wide spread usage to make business sustainable

3.7.3.3 Fairness

- i. PDO may apply for one or several PDO locations to cover an area/region/state etc. Company will respect such applications
- ii. Company will ensure fairness in location of PDO's in line with the fairness policy for partners defined in 3.7.1.1
- iii. Company will choose PDO locations which complement the PDO locations chosen by competitor companies in order to protect investments of PDO's
- iv. When applications originate from same or nearby areas, the company in its best capacity will alert the PDO applicants about division of revenue due to such overlapping PDO deployments. It is in the interest of the PDO applicants to reconsider their application in such cases and possibly reapply as a partnership or withdraw if not in their favour. The company will not deny an application if still made

- v. Company will ensure sustainability of business across company PDO's to the best extent possible by using limited flexibility available in the cost and revenue model

3.7.3.4 Agreement

- i. PDO will have to sign a one-time agreement with template for commercials and T&C to engage with the company for PDO setup
- ii. PDO agreement will be for 3 years during which the policy, template for commercials & associated terms and condition will not majorly change. Minor changes may be accommodated by adding addendums to the original agreement if necessary, during the course of the agreement period
- iii. PDO during the agreement period will be issued PDO subscription voucher capturing the actual commercials to operate the PDO as per PDO's roles & responsibilities

3.7.3.5 Commercials

- i. PDO subscription voucher will be issued by company and will be considered active after PDO signs and fulfils the one-time PDO subscription commercials
- ii. PDO may be issued revised PDO subscription vouchers thereafter in case of change in commercials or T&C for operations. Revised PDO subscription shall be considered as change in commercials only as per provisions of the agreement and the agreement shall remain valid until end of term
- iii. The template for PDO commercials will be as described in Section 3.7.4

3.7.3.6 T&C

The engagement of company with PDO shall be governed by agreement/commercials signed and T&C for engagement as described below.

PDO Subscription: -

- xli. Company shall issue new or revised PDO subscription voucher to PDO for acceptance as per template in Section 3.7.4.3
- xlii. A new/revised PDO subscription shall by default be marked as "inactive" until acceptance by PDO and activation of new/revised base plan by ISP. A PDO subscription shall remain in "inactive" state otherwise.
- xliii. PDO subscriptions once activated cannot be revised for at least 3 months from the date of activation
- xliv. Company may receive requests from PDO or ISP (with valid reason) for suspension or termination of PDO subscription. Or company by itself (with valid reasons) may decide to suspend / terminate the PDO subscription. In such cases the company will mark PDO subscription as "inactive/terminated" with reason and stop PMWANI WiFi services at PDO

with immediate effect. PDO subscription suspension will be temporary and revokable (e.g. non-payment of rent for ISP base plan). A termination would mean termination of agreement signed between the PDO and company and termination procedures for final settlement would follow.

PDO Subscription Ownership: -

- xliv. The base subscription portion of PDO subscription will be in the name of the PDO owner and provided by ISP. The internet router will be property of ISP and/or PDO as per agreement for base plan between ISP and PDO. ISP will independently manage the base subscription of PDO. The company will only facilitate the base subscription based on PMWANI requirements.
 - a. PDO will be completely responsible for fulfilling both the one-time and monthly commercials of the base subscription with the ISP.
- xlvi. The PMWANI portion of PDO subscription will in the name of PDO owner and provided by the company. The PMWANI WiFi access point (AP) will be the property of company and/or PDO as per agreement between company and PDO. Company shall independently manage the PMWANI subscription of the PDO.
 - b. PDO will be completely responsible for fulfilling the one-time commercials of the PMWANI subscription.
 - c. Company will be completely responsible for fulfilling the monthly commercials of the PMWANI subscription towards PDO as per settlement rules for PDO in Section 3.7.4.5.2

PDO Subscription Transfer: -

- xlvii. PDO subscription transfer initiated by the current owner will be taken forward by company as termination of current PDO agreement and initiation of new PDO agreement with new owner
- xlvi. The new owner will have to sign the PDO agreement and follow normal process for the PDO subscription to effect the transfer. The process will include transfer of or issue of new base internet subscription by ISP in new owner name.

PDO Location Transfer: -

- xliv. PDO location will be mentioned in the PDO subscription and company will publish the same in the PMWANI central registry database displayed to the users
 - i. The PDO owner cannot change the location of PDO without prior intimation and subsequent confirmation from company
 - ii. PDO location transfer will be confirmed by company by issuing a new PDO subscription with change in location and no other change in commercials
 - iii. Moving of internet base subscription connection to new location including expenses and associated process thereby with ISP will be PDO responsibility and will be a pre-requisite for company to make central registry updates

PDO maintenance: -

- liii. PDO shall decide the working hours for PDO based on local restrictions, local usage patterns, security considerations etc.
- liv. PDO shall declare the working hours to the company in advance for the company to update the same in the PMWANI central registry and hence make the working hours available for users to view in the company app
- lv. PDO will be completely responsible for local PDO maintenance like local security to equipment, electricity/backup, issue resolution support etc. to ensure uninterrupted PMWANI WiFi availability during PDO working hours
- lvi. Company will be responsible for investigating failures in PMWANI WiFi access
- lvii. Company will be responsible for fixing of software issues in PMWANI WiFi access point remotely
- lviii. For any other issues which cannot be investigated or fixed remotely, PDO has to send the PMWANI WiFi access point to the company for further investigation. The company shall fix/replace the equipment at a cost to be borne by the PDO. Company shall arrive at the repair/replacement cost after considering new equipment cost or repair cost adjusted against security deposit held by the company. Company may provide a temporary replacement at no extra cost until new equipment or repaired equipment is available.

PMWANI monthly Settlement (towards PDO): -

- lix. PDO revenue will be calculated as per rule defined in Section 3.7.4.4.
- lx. Company will use the PDO revenue declared by authorized accounting software from Government or Government approved vendor as basis to do PDO settlement calculations as per PDO settlement rules in Section 3.7.4.5.2.
- lxi. PDO shall not generate any monthly invoices/demand towards settlements for PDO revenue
- lxii. Company will do the revenue settlement calculation for month (N) before 7th day of month (N+1). Revenue settlement statement for month (N) will be generated and shared with the PDO on 7th day of month (N+1)
- lxiii. Any discrepancies observed by the PDO in the revenue settlement shall be brought to the notice of the company before 15th day of month (N+1) and rectification if any from the company will be completed within 7 days and revenue settlement will be completed by 21st day of month (N+1)
- lxiv. Revenue settlement for PDO will happen in the bank account of PDO authorized by the PDO only. There will be no cash settlement
- lxv. Delay in revenue settlement will result in per day penalty as described in PDO subscription, Section 3.7.4.3

- lxvi. Delay in revenue settlement beyond maximum limit as described in PDO subscription, Section 3.7.4.3, shall entitle PDO to one of the following:
- a. Suspend the PMWANI subscription. Raise a grievance using the available grievance redressal mechanism provided by the company. The PDO agreement with the company shall remain unaffected
 - b. Permanently terminate the agreement with company which shall be considered as unnatural termination of agreement with immediate effect. Company will be obliged to clear its dues towards PDO with penalties until the date of termination and do the final settlement for PDO

Authorization: -

- lxvii. The company will be represented by authorized personnel who will send official emails to report signed plans, agreements, account statements, settlements etc. Any other informal communication through social media channels etc. shall be considered unofficial
- lxviii. PDO shall be represented by an authorized person as per PDO agreement to sign on PDO subscription vouchers or any other matter between the PDO and company
- lix. The company may introduce a business tool in future to capture all agreements/transactions and record signatures for which logins will be made available to authorized PDO personnel. Access to such business tool shall be considered as substitute for official email communication

Confidentiality: -

- lxx. All engagement material consisting of PDO agreement, PDO subscription vouchers or any other material between PDO and company shall be considered as confidential between PDO and company and will require careful handling by both PDO and company as per partner confidential policy as in Section 3.7.1.2

Transparency: -

- lxxi. PDO will receive a PDO revenue settlement statement as per scheduled date mentioned above to verify the correctness of accounting in monthly settlements that happen
- lxxii. Company shall not be obliged to share any further information that will reveal the commercials of 3rd party like ISP or any other partner. Any such information may be obtained by the PDO by using the available grievance redressal mechanism provided by the company

Termination: -

- lxxiii. PDO or company (with reasons) may terminate the PDO agreement. Termination of PDO agreement shall lead to moving the active PDO subscription to “terminated” state with immediate effect

- lxxiv. Company shall thereafter initiate steps towards PDO for return of PMWANI WiFi Access Point and settle the dues of the PDO including settlement of security deposit as per terms & conditions for security deposit as mentioned in the PDO plan in Section 3.7.4.3
- lxxv. Final settlement for PDO shall be completed in the next settlement cycle
- lxxvi. PDO agreement termination shall not impact the status of the base internet subscription. Company shall inform the ISP about the PMWANI subscription termination of PDO. ISP may at its discretion decide to allow or disallow the base plan to function based on existing agreement with the PDO

Renewal: -

- lxxvii. In normal scenarios, company may initiate renewal of agreement with PDO 3 months before end of the 3 year agreement period

Business Guarantee: -

- lxxviii. The company cannot provide any guarantee to the PDO on the volume of business that PMWANI WiFi can generate or guarantee on sustaining ongoing business given the dynamic usage scenarios that may happen. Any business projection shared with the PDO (formally or informally) during PDO agreement or PDO subscription phases shall be based on best available inputs and assumptions made by the company and the PDO shall not hold the company responsible in future for the correctness of the same.
- lxxix. PDO will be entirely responsible for local marketing for promoting PMWANI at ground level and ensuring wide spread usage to make business profitable
- lxxx. The company shall not be held liable for any losses that the PDO may incur due to PMWANI business

Grievances: -

- lxxxi. The company will be the single Point of Contact for all grievances related to agreements or payments or in general any other issues related to PMWANI WiFi retail. Company will address the grievances as per its Grievances policy in Section 3.5.2

3.7.4 Commercials Template

Below definitions/templates will define the commercials for revenue sharing between company, ISP and PDO

3.7.4.1 ISP Plan Template

- i. ISP plans for PMWANI WiFi will follow the below template

	ISP Base plan parameters (Default plans)				ISP base plan correction due to PMWANI retail			ISP Revenue Settlement Parameters for PMWANI retail revenue	
ISP's PMWANI plan name	Interne t Speed, Data Limit Etc.	ISP Subscri ption	ISP Deposit	ISP Mont hly Rent	ISP Subscript ion	ISP Deposit	ISP Mont hly Rent	ISP Monthl y Rent (F1)	ISP monthly % Share (V1%) Note: PDO monthly share is 100 – ISP % share (V2%)
ISP Plan1									
ISP Plan2									
<u>Others PMWANI parameters: -</u>									
Penalty for late settlement								P% per annum calculated on daily basis	
Maximum delay permissible to initiate company disallowing PMWANI retail								N Days	

- ii. The template allows one section for base plan commercials correction due to PMWANI retail and another section for revenue settlement for PMWANI retail

Base-plan one-time commercials: -

- iii. Base plan correction will result in one-time charges to PDO owner; an effective difference amount for subscription and deposit, payable by PDO owner
- iv. On intimation about PDO signup and on receiving the base plan one-time charges, the ISP will issue a new/revised base plan subscription voucher to the PDO owner with new/revised base plan subscription parameters
- v. The new/revised base plan subscription voucher shall have explicit mention of “retail allowed” (or) “PMWANI retail allowed” as found appropriate to indicate the eligibility to PDO owner to retail internet
- vi. Base plan one-time commercials will be PDO responsibility as per terms and conditions defined by ISP. The company will only play the role of facilitator for base plan addition/correction due to PMWANI requirements.

Base-plan monthly commercials: -

- vii. New/revised base plan will result in a recurring monthly rent to PDO owner

- viii. Base plan monthly rent settlement will be PDO responsibility as per terms and conditions defined by ISP.

PMWANI monthly commercials: -

- ix. PDO revenue will be settled to ISP as per below
- x. ISP monthly % share from PDO revenue will be paid as per revenue settlement parameters above and settlement rules in section 3.7.4.5.1
- xi. ISP monthly rent and ISP monthly share will be denoted by **(F1)** and **(V1%)** respectively in settlement rules in section 3.7.4.5.1
- xii. ISP monthly settlement (rent & %share) will be company responsibility and will be recovered by the company from the revenue of the PDO and paid to the ISP
- xiii. The PDO monthly % share will be (100 - % share of ISP)

Confidentiality: -

- xiv. ISP plan template parameters and rules in 3.7.4.1 will be confidential to company and ISP and cannot be shared with PDO or any other 3rd party without mutual consent of company and ISP

3.7.4.2 PDO Plan Template

- i. Company will publish its own charges as PDO plans in advance.
- ii. Company will combine its plans with ISP plans to prepare new/revised PDO plans revised and rolled out on a quarterly basis
- iii. PDO plan template will have the following parameters

Company's PDO plan name	WiFi Type (Access Point Type)	Company One-time subscription parameters		Company Monthly Settlement Parameters	
		Company Subscription	Company Deposit	Company Monthly Rent (F2)	Company monthly % Commission (C%)
PDO Plan1					<u>Note:</u> Applied to both ISP and PDO % share in ISP plan
PDO Plan2					

- iv. The template consists of company one-time subscription parameters payable by the PDO owner to the company

- v. The template consists of company monthly rent that the PDO owner has to pay to the company
- vi. The template consists of company monthly % commission chargeable to both ISP and PDO % share of PDO revenue
- vii. Company monthly rent and % commission will be recovered from PDO revenue as per revenue settlement parameters above and rules in Section 3.7.4.5
- viii. Company monthly rent and % commission will be denoted by **(F2)** and **(C%)** respectively in settlement rules in section 3.7.4.5

Confidentiality: -

- ix. The company revenue settlement parameters shall be confidential between the company and ISP, and neither company nor ISP shall publish the same to 3rd party without prior mutual consent.
- x. Relevant parameters of interest to PDO will be made available to the PDO through the PDO subscription template

3.7.4.3 PDO Subscription Template

- i. PDO subscription will have the following parameters and commercials consolidated from ISP and PDOA plans

PDO Details	PDO Name		PDO Owner		PDO location		PDO unique Id	
	<Optional name given by Owner>		<Owner Name>		<PDO location co-ordinates>		<Unique Id given by company>	
Commercials	ISP Base Plan		PDO Plan		PDO One-time subscription parameters		PDO monthly Settlement Parameters	
	ISP plan Name	ISP commercials	PDO Plan Name	WiFi Type (Access Point Type)	PDO Subscription fees (one-time)	PDO Deposit (one-time)	PDO Monthly Rent (F)	PDO monthly % Share (V_{PDO, effective} %)
	<i>E.g. ISP Plan1</i>	<i>As defined in ISP base plan</i>	<i>E.g. PDO Plan1</i>	<i>E.g. WAYU</i>	<i>Fixed</i>	<i>PDO equipment current value</i>		<i>Effective % share after deduction of company commission</i>
Penalty for late settlement by company = P% per annum calculated on daily basis Maximum delay in settlement by company = D days								

PDO deposit refund value = PDO equipment current value as per above after depreciation calculated as straight-line depreciation to minimum value of Rs. 100/- at end of remaining life of equipment

- ii. PDO monthly rent will be recovered from the PDO revenue for the month and as per revenue settlement rules in Section 3.7.4.5.2
- iii. PDO monthly % share will be the effective % share for PDO after reducing ISP and company % share and will be paid from PDO revenue as per revenue settlement rules in Section 3.7.4.5.2

Confidentiality: -

- iv. PDO revenue settlement rules in Section 3.7.4.5.2 will be confidential between company and PDO and will be not be shared with PDO or any 3rd party without mutual consent

3.7.4.4 PDO Revenue

- i. PDO revenue will be the value of PMWANI retail collections that can be associated with a PDO at the end of a PDO revenue calculation cycle
- ii. PDO revenue calculation cycle will be one month
- iii. PDO revenue calculation method will be the total value of internet consumed at PDO by the PDO users in the PDO revenue calculation cycle

Authority: -

- iv. PDO revenue calculation will be done by Government/Authority provided/approved software
- v. Company will consider the PDO revenue calculation as basis to do partner settlements as per settlement rules defined in section 3.7.4.5
- vi. PDO revenue is denoted as **(R)** in the in section 3.7.4.5

3.7.4.5 Revenue Settlement Rules

This section deals with the settlement of total revenue (R) that a PDO realizes in a month due to PMWANI retail, the same being available in the company account for settlement

3.7.4.5.1 ISP Settlement

ISP settlement will follow the below rules

Revenue sharing model for ISP understanding: -

- i. The company will first recover the fixed monthly rent (F1) and (F2) of ISP and company respectively from the total revenue (R)
- ii. Revenue in excess of the monthly rent will be shared in the ratio (V1% : V2%) between the ISP and PDO respectively

- iii. Company commission (C% of V1% + C% of V2%) on excess revenue will be deducted by company before making excess revenue payment to ISP and PDO

Revenue Sharing Scenarios: -

- iv. $R < F1 + F2$, i.e., revenue collected is less than rental commitments of PDO
- In this case available revenue is divided in proportion to ISP and company rent to recover the monthly rent partially.
- Excess revenue = $E = 0$
 - Payout to ISP = $F1 / (F1 + F2) * (R)$
 - Payout to PDO = 0
- v. $R \geq F1 + F2$, i.e., revenue collected is in excess of rental commitment of PDO

In this case rentals of ISP and company are fulfilled. Revenue in excess of rentals is then shared as per agreed % share

- Excess revenue = $E = R - (F1 + F2)$
- Payout to ISP = $(100 - C\%) * (V1\% \text{ of } E) + F1$
- Payout to PDO = $(100 - C\%) * (V2\% \text{ of } E)$

3.7.4.5.2 PDO Settlement

PDO Settlement will follow the below rules

Revenue sharing model for PDO understanding: -

- The company will first recover the fixed monthly PDO rent (F) from the total revenue (R)
- Revenue in excess of the monthly rent will be shared with PDO as $V_{PDO, \text{effective}} \%$

Revenue Sharing Scenarios: -

- iii. $R < F$, i.e., revenue collected is less than rental commitments of PDO
 - o Payout to PDO = 0
- iv. $R \geq F$, i.e., revenue collected is in excess of rental commitment of PDO
 - o Excess revenue = $E = R - F$
 - o Payout to PDO = $V_{PDO, effective} \% * E$

4 Content Usage

The below table maps sections for display in relevant user/partner docs

Section No.	Section Title	WIFI Pravaah Web Page	WIFI Pravaah User App	ISP Master Agreement	PDO Agreement	PDO subscription Voucher	WIFI Pravaah User landing page (Captive Portal)
